

Mini CST Cold Sealed Terminals

Model CSTM2C1-15D-08F

NAME
Mini CST Cold Sealed Terminal 15 Pair c/w 8ft Shielded Cable Stub

ORDER NUMBER
CSTM2C1-15D-08F

The Mini CST terminal closure is environmentally sealed and available in a 15 pair which can be used above or below grade. Craft friendly, tool-less design requires no additional parts or accessories to install standard 2, 3, 5, or 6 pair buried drops or 2 to 6 pr aerial drops.

This design provides reliable services over copper networks under any outside plant environmental conditions.

BENEFITS

- Allows use in harsh environments above and below grade (man hole, hand hole, pole, and marina mount)
- Closure can be easily opened to add, remove or modify service with no additional parts required
- No need to inventory a variety of sizes or use a wire gauge prior to installation. Prevents improper use and is fully backwards compatible with existing drop wires
- No need to splice in round service wire
- Only the 216 tool (can wrench) is needed for sealing and grounding drops
- No more need to purchase closures with pre-installed drop or to splice drops outside the closure
