

DTE Domed Terminal Enclosure

Model SA-DTE1-P025

NAME	ORDER NUMBER
DTE Domed Terminal Enclosure with 10ft Tail	SA-DTE1-P025-010
DTE Domed Terminal Enclosure with 25ft Tail	SA-DTE1-P025-025

The DTE1-P025 terminal closure is environmentally sealed 25 pair terminal which can be used above or below grade. Craft friendly, tool-less design requires no additional parts or accessories to install standard 2, 3, 5, or 6 pair service drops.

This design provides reliable services over copper networks under any outside plant environmental conditions.

SPECIFICATIONS

DOME	5.375" Diameter 12" Length
OVERALL	7" Diameter 13" Length
DROP CABLES	12
CABLE PORTS	2
GROMMET SIZE	0.28 - 0.62" Drop Cable 1.125" Diameter Cable

BENEFITS

- Allows use in harsh environments above and below grade (manhole, hand hole, pole, and marina mount)
- Closure can be easily opened to add, remove or modify service with no additional parts required
- No need to inventory a variety of sizes or use a wire gauge prior to installation. Prevents improper use and is fully backwards compatible with existing drop wires
