

# DTE Domed Terminal Enclosure

Model SA-DTE1-P025

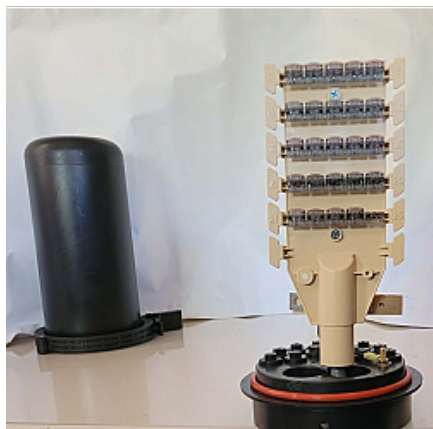

NAME	ORDER NUMBER
DTE Domed Terminal Enclosure with 10ft Tail	SA-DTE1-P025-010
DTE Domed Terminal Enclosure with 25ft Tail	SA-DTE1-P025-025

The DTE1-P025 terminal closure is environmentally sealed 25 pair terminal which can be used above or below grade. Craft friendly, tool-less design requires no additional parts or accessories to install standard 2, 3, 5, or 6 pair service drops.

This design provides reliable services over copper networks under any outside plant environmental conditions.

## SPECIFICATIONS

<b>DOME</b>	5.375" Diameter 12" Length
<b>OVERALL</b>	7" Diameter 13" Length
<b>DROP CABLES</b>	12
<b>CABLE PORTS</b>	2
<b>GROMMET SIZE</b>	0.28 - 0.62" Drop Cable 1.125" Diameter Cable

## BENEFITS

- Allows use in harsh environments above and below grade (manhole, hand hole, pole, and marina mount)
- Closure can be easily opened to add, remove or modify service with no additional parts required
- No need to inventory a variety of sizes or use a wire gauge prior to installation. Prevents improper use and is fully backwards compatible with existing drop wires
- No need to splice in round service wire
