# Butt Splice Crimp Tool

Model SA-CNTO-0001

| NAME | ORDER NUMBER |
| --- | --- |
| **Butt Splice Crimp Tool** | **SA-CNTO-0001** |

The Butt Splice Crimp Tool is designed with a wire cutter and long nosed stepped jaws for crimping CNI Butt Splice Connectors and similar industry standard butt splice connectors.

The PVC coated handles provide a smooth comfortable grip while cutting soft copper telephone and network wire as well as when crimping the butt splice connectors. The long nosed stepped jaws are designed to provide a parallel crimping action that provides the correct pressure and travel distance to ensure a properly terminated connection.

**Note:** Non soft copper telephone wire can damage the cutting blade

## SPECIFICATIONS

| | | |
| --- | --- | --- |
