

Multi-Use Domed Pedestal (MDP)

Model SA-6007-1001; SA-6007-1201

NAME
10" Multi-Use Domed Pedestal (MDP)
12" Multi-Use Domed Pedestal (MDP)

ORDER NUMBER
SA-6007-1001
SA-6007-1201

The CNI Multi-Use Domed Pedestal (MDP) is manufactured in the USA with UV rated engineered thermoplastic and come in various sizes. The split base is designed with oversized extrusions that establish improved holding power in multiple substrates (soil, gravel, sand etc.) and supports stake mount deployment.

The 3-position internal ladder bracket allows for easy retrofit while allowing multiple tie options. The domed lid sheds rain and snow while preventing water intrusion in the event of a flood. The technician friendly metal latch is at a convenient working height, with tear drop shaped indentation to shed water. Its recessed handles provide easy access and lid removal.

Contact sales@comtestnetworks.com for further information

BENEFITS
