

# QCM31A Test Connector

Model A0259585 A0260366

NAME	ORDER NUMBER
QCM31A Test Connector	A0259585
QCAF1A Carrying Case	A0260366

## BENEFITS

- Simplifies testing and qualifying 100-Pair count with a single test connector
- Saves OPEX as testing is completed by a single technician
- Reduces technician time

The Comtest QCM31A Test Connector is a 100-pair connector for testing of outside plant pairs through the test field of a QCM486 Connector which consists of a one-piece test shoe with 200 spring-loaded gold-plated contacts, a 15ft. (4.57 m) cable and four NS19162L4 plugs.

The QCAF1A is a protective, foam lined carrying case used for transporting and protecting the QCM31A Test Connector.
