

Description

KeyQuick® mechanical splice for drop/subscriber cable 3.0mm. | **MS400**

Characteristics

- No tools or templates required.
- Transparent windows for checking the splice result.
- No epoxy required.
- Valid for flat cable (drop) fibers.
- The connection is made in 30 seconds.
- Average insertion loss of 0.1 dB.
- Reusable.

Specifications

Fiber size	Flat cable (drop)
Splice time	30 seconds (after preparing the terminations)
Typical Insertion Loss (dB)	< 0,1 dB
Typical Return Loss (dB)	< -50 dB
Typical Tensile Strength (N)	40N (4kgf)
Operating Temperature (°C)	-20~+75
Materials	Plastic and gel
Dimensions (mm)	77 x 10 x 7
