

CNI – Canexsys Networks Inc. acquires Bourns connector division

Effective May 1, 2020 – CNI announced that it purchased Bourns’ assets associated with its copper connection business.

Transition Plan

Manufacturing equipment, fixtures and tooling have been transferred to CNI facilities and inquiries orders should be directed to sales@comtestnetworks.com. To ease the transition, CNI will continue to use the same Bourns part numbers for the acquired Connection business products.
